

THE ULTIMATE CHÂTEAU LAFITE-ROTHSCHILD COLLECTION

While exceptional collections may come and go over the years, there will never be another one like this. The combination of prestigious vintages and uniquely crafted cabinetry is a singular achievement that is beyond replication. This Ultimate Château Lafite-Rothschild Collection is comprised of a spectacular vertical, encased in an irreplaceable piece of art.

ONE HUNDRED AND THREE (103) CAREFULLY SELECTED VINTAGES

- Includes every great Château Lafite-Rothschild vintage produced between 1900 and 2005, covering a total of **ninety-seven (97)** vintages and excluding a handful of sub-par years which are of inferior quality.
- **Six (6)** pre-1900 vintages of impeccable provenance dating back to 1873 (please refer to the special addendum on the pre-1900 vintages).
- **Six (6)** rare Imperials (600cl each), all of which has been rated a perfect, 100 points from 1959, 1982, 1986, 1996, 2000 and 2003.

UNIQUE, CRAFTSMAN-MODELLED CHÂTEAU LAFITE CABINET

Commissioned by The Antique Wine Company as a distinctive and exclusive storage unit, this special cabinet was hand-made by Viscount David Linley of LINLEY bespoke furniture in London. The cabinet is notable for a number of reasons:

- Detailed, exotic wood inlays and minute filigree patterns recreate the iconic image of a Lafite-Rothschild label on the front face, while a gorgeous, twisting pattern of vine leaves is inset across the top display surface.
- **Four (4)** temperature and humidity controlled storage units are located inside the cabinet to keep all of the vintages safe, stable and under ideal conditions.
- The cabinet measures a stunning **1.33m high, 3.23m wide and .8m deep**, ensuring that it will be a statement piece in any grand salon or fine wine cellar.

AN ARTISTIC PIECE OF INCOMPARABLE VALUE

It is always difficult to value singular works of rare art. Recent Lafite-Rothschild collections – which consisted of significantly fewer vintages and without large formats – have achieved transaction values exceeding €1.6m.

Given the extensive selection of wines contained in this collection (including both ancient bottles and large formats), the meticulous design process and the painstaking cabinet construction, we expect that this package will achieve a transaction value of between £2m and £2.5m. We will therefore entertain all serious offers which exceed £2m.
